### **POST OPERATIVE DIRECTION WART SURGERY**

1. Some bleeding through the bandage is normal.
2. For any discomfort take one or two Aspirin or Tylenol every four hours as needed.
3. Limit activity the day of surgery.
4. The morning after surgery, remove the bandage. If stuck, **DO NOT PULL IT OFF**, soak it in warm water.
5. Clean area with Hydrogen Peroxide, - apply Betadine Solution or Merthiolate and cover with a band-aid.
6. Keep covered and clean during healing process.
7. If any questions or problems arise, do not hesitate to call us at 756-1961 or 1-800-788-5451.
